Mr. Tom Salley
Department of Environment, Health and Natural Resources
Winston-Salem Regional Office
Winston-Salem, North Carolina

Dear Mr. Salley:

We have been retained by Taco Bell Corporation to assess the confirmed petroleum contamination at the proposed Taco Bell site at 3742 Battleground Avenue and to remediate as necessary.

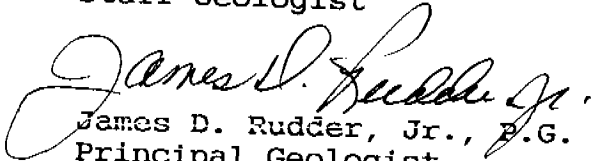

We have already informed your office by telephone of the situation at this site, but our client has requested that we inform you in writing.

We have already submitted the necessary permit applications for our assessment efforts. If you have any questions, please call Miriam White or Joe Best at 919/294-4221.

Best regards.

Very truly yours,

Joseph P. Best
